

## BRIEF SUMMARY

To secure a challenging role in the field of Computer Science and Data Science where I can apply my full-stack development skills, problem-solving abilities, and passion for technology to build impactful software solutions, while continuously learning and contributing to the growth of the organization.

## KEY EXPERTISE

C++ C Python Java Javascript HTML CSS React.js Node.js Machine Learning MySQL MongoDB  
Data Analytics

## EDUCATION

### Galgotias University

2022 - 2026

B.Tech. - CSE | Percentage: 71.19 / 100

### Sant Gyaneshwar Model School, Alipur

2022

12<sup>th</sup> | CBSE | Percentage: 76.60 / 100

### Bal Bharti Public School, Noida

2020

10<sup>th</sup> | CBSE | Percentage: 92.40 / 100

## INTERNSHIPS

### Alcronix | IT / Computers - Software

20 Jul, 2025 - 20 Aug, 2025

#### Web Developer

At Alcronix, I'm interning as a web developer, contributing to both front-end and back-end development tasks. My responsibilities include building responsive user interfaces, optimizing website performance, debugging code, and collaborating with the development team to enhance web applications. I work primarily with technologies such as HTML, CSS, JavaScript, and frameworks like React. This role has strengthened my skills in version control (Git), problem-solving, and real-world application development in a collaborative environment.

## PROJECTS

### E-commerce Website

**Key Skills:** MongoDB Express.js React.js Node.js CSS API

I developed an ecommerce website with a clean, modern design inspired by platforms like Amazon, focusing on both aesthetics and user experience. The site features a responsive layout, visually organized product blocks, and a minimal, soothing color palette with consistent typography. I implemented key functionalities such as individual product pages, a shopping cart, and a smooth checkout system. To enhance user engagement, I also added customer service sections like "Contact Us" and "Connect with Us" in the footer. This project helped me strengthen my frontend and backend skills while building a fully functional, user-friendly online shopping platform.

### Note Taking Application

**Key Skills:** Built using HTML CSS and JavaScript UI/UX problem-solving

#### Sticky Notes - Interactive Note-Taking App

I developed a minimalist and interactive note-taking app with rich-text editing, draggable sticky notes, and a pop-out feature. Users can create, edit, format (bold, italic, underline, strikethrough), and organize notes efficiently.

### Online Learning Platform

**Key Skills:** Javascript React.js Node.js MongoDB Express.js CSS

I designed and developed a full-featured online learning platform aimed at delivering educational content through an intuitive, user-friendly interface. The platform supports user authentication, course enrollment, video lectures, quizzes, progress tracking, and an admin dashboard for managing content. The system ensures responsive design, secure data handling, and scalability. This project helped me sharpen my skills in front-end and back-end development, API integration, and user experience design while solving real-world challenges in e-learning.

PERSONAL DETAILS

**Gender:** Male

**Marital Status:** Single

**Current Address:** B-28D Rajat Vihar B block, Sector 62, Noida, Sector 62, Noida, Noida, Uttar Pradesh, India - 201301

**Email:** aarush1998@gmail.com

**Date of Birth:** 24 Sep, 2004

**Known Languages:** Hindi, English

**Phone Number:** +91-9818926178
